View Larger Map / Directions

Avanade is the technology architect for leaders of the connected world. Founded in April 2000 as a joint venture between Microsoft and Accenture, we have grown to over 18,000 employees with 70 offices in 20 locations throughout Asia, Australia, Europe and United States. As the leading technology developer and integrator of Microsoft solutions in the enterprise, Avanade is uniquely positioned to help customers realize the promise of reduced total cost of ownership (TOC) associated with Microsoft-based solutions.

Avanade is an exciting place to work - imbued with an entrepreneurial spirit and organizationally flat to promote self-determination, communication and collaboration. Join Avanade and you will be part of a premier consulting organization focused on the Microsoft enterprise suite. Avanade offers Microsoft professionals with a passion for technology the opportunity to pursue a truly technical career path.

Product & Services
As a global IT consultancy specializing in solutions based on the Microsoft enterprise platform, Avanade offers an unmatched portfolio of solutions designed to help your organization reduce costs, increase revenue and reinvest in innovation for competitive advantage. We build our solutions on the collective experience, enterprise customer successes and best practices of our global community of technology experts, who represent the highest concentration of Microsoft certifications in the industry.

Avanade offers solutions in the following areas:

Application Development
Derive the most value from mission-critical applications by partnering with our .NET technology experts to rapidly and cost-effectively develop new, extensible applications, using the .NET Framework. Gain a competitive advantage in the market by connecting disparate systems and processes with a unifying architecture, reducing costs while increasing functionality, transparency, efficiency and agility.

Business Intelligence
Uncover the strategic advantages contained in your company data and help your employees with convenient, secure access to that information. Our solutions help you turn data into action with insight into your customers, supply chain, operations, financial health and more.

Collaboration
Help your employees easily access and share critical information more efficiently, at any time, from any device. Improve your productivity with web based content and document management, helping your people make faster, more accurate decisions.

Customer Relationship Management
Built on Microsoft Dynamics® CRM, Avanade CRM services can be hosted or on premise and offer an integrated, comprehensive view into customer behavior that helps you deliver better customer service, improve sales and strengthen vital business relationships.

Enterprise Resource Planning
Avanade ERP services are built on Microsoft Dynamics® AX, and integrate with your heterogeneous IT environment to connect partners, customers, and employees. With fully-tested, preassembled code and industry-specific services, you'll get more value out of your ERP project faster and more cost-effectively.

Managed Services
Lower the total cost of ownership by contracting Avanade to manage your Microsoft applications and infrastructure under a service level-based agreement. Avanade Managed Services also includes a range of cloud-based services in which you pay only for the services you use. You'll get the same applications you're already using, but at a fraction of the cost.

Technology Infrastructure
Avanade Technology Infrastructure services help create dynamic infrastructures that are efficient, scalable and extremely flexible. From the datacenter to the desktop, our services are designed to help you unleash new levels of performance, at lower cost.

Why Join Us?
